ACTIVITY REPORT – JANUARY 2024

ACTIVITIES CARRIED OUT:

- Documenting activities were carried out regarding the diversity of the school environment in our unit. The most relevant information was selected, which was then included in multimedia materials to be presented at the partnership level, within the online seminar, United in Diversity. The seminar allowed participants from all partner schools to exchange information about diversity and good practices of school inclusion. The conclusions drawn highlighted the fact that unity in diversity must aim for the common good, by developing the spirit of tolerance, dignity, and human solidarity, combating ignorance through morals and cultural diversity.
- Artistic activities highlighted diversity as an expression of harmony and unity between different ethnic groups who live in Medgidia.
- The relevant aspects of the activities were posted online.
- The project map was completed with the documents related to January.

OBJECTIVES ACHIEVED:

- Formation of documentation and information selection skills materialized through the creation of multimedia materials, and portfolios.
- Promoting cultural diversity, the rights of people belonging to ethnic minorities, and tolerance as well as school inclusion.
- Informing the general public about the activities carried out and the results obtained through the permanent updating of the official project website, the Facebook page, the twinspace, and the school website.

RESULTS:

- multimedia materials, portfolios, photos, activity sheets, and reports, minutes, and updated project map;
- the exchange of best practices between partners regarding school inclusion, promoting at the same time interculturality and the diversity of one's own school and social environment.
